

# **HLR SERIES™** Non-steer Lift Axle Systems

Hendrickson designed the new HLR Series™ to provide high lifting capability, accommodate various ride heights and facilitate easier installation.

The axle is positioned at the rear of the suspension, allowing greater clearance of the vehicle undercarriage. Available in short and medium beam versions to accommodate a variety of frame packaging dimensions.

For additional information, call 800.660.2829 or visit our web site at [www.hendrickson-intl.com](http://www.hendrickson-intl.com).
