

PARTS BULLETIN

AERO GUARD™ Bumper Design Change & Model Year Coverage Extension

SUBJECT: AERO GUARD™ Bumper for ProStar® Series

LIT NO: C156

DATE: March 2012

IMPORTANT NOTICE

NEW AERO GUARD™ BUMPER DESIGN CHANGE ENHANCEMENTS AND MODEL YEAR COVERAGE EXTENDED TO 2012

Hendrickson's AERO GUARD™ bumper for ProStar® Series now comes with a universal mounting bracket assembly that allows for one part number to be used to replace all model years. Our lightweight, high strength, two piece design combined with our new universal mounting bracket works with the factory tilt mechanism and will allow for less inventory and part number tracking.

Now molded in dark shadow gray for a better body side molding and side fairing color match, the AERO GUARD bumper increases ground clearance while giving the customer cold impact durability to -30 degrees.

AERO GUARD bumper for ProStar Series is now easier to paint if customer chooses to match body paint color. We have reduced the texture making it easier for the paint to adhere to the bumper surface. Please follow OE recommended painting procedures.

HENDRICKSON NOW OFFERS THE FOLLOWING PART NUMBERS FOR IMMEDIATE ORDERING, SUPERSEDING ALL OTHER PART NUMBERS
