

**AANT 23K, AAT 23K/25K
Cambered Axle for Agricultural Trailers**

Maximize your grain/livestock payload using Hendrickson INTRAAX® suspensions with cambered Large-Diameter Axle (LDA™)

Hendrickson now introduces a cambered Large-Diameter Axle (LDA™) in its already light weight INTRAAX® AANT and AAT top mount suspension systems. This is aimed specifically at helping agricultural trailers (grain hopper/livestock applications) achieve the lowest trailer weight, while maximizing their payload.

If your preference is a cambered axle for your grain hopper or livestock trailer, then INTRAAX with LDA is the suspension of choice. The LDA axle is cambered to approximately 1/2 of a degree (which is considered industry accepted). This option is available in our INTRAAX AANT23K and both AAT23K and AAT25K suspensions.

This option comes with the same ride height ranges and most available options already available for those models; and maintains the same superior performance and benefits, durability, low maintenance and smooth, stable ride that INTRAAX delivers.

For additional information, call **1-866-RIDEAIR** or visit our web site at www.hendrickson-intl.com.

HENDRICKSON
The World Rides On Us®

INTRAAAX® features and benefits boost trailer productivity and value

Standard Features

- Standard with Hendrickson Large-Diameter Axle (LDA™) cambered to approximately 1/2 of a degree
- TRI-FUNCTIONAL® Bushing, rigid trailing arm and solid axle connection provide the ideal combination of ride softness and stability
- Patented axle wrap and window weld for optimal structural integrity
- Short 10-inch S-cam reduces windup and bushing wear for responsive, consistent stopping power
- Brake hardware welded to trailing arms rather than axle, minimizes axle stress
- QUIK-ALIGN® for fast, reliable and convenient axle alignment
- Leading structural warranty* supported by wide network of OEMs, dealers, distributors and outstanding Hendrickson technical support staff

**Contact your local Hendrickson representative for complete warranty terms, conditions and limitations. Bending of any INTRAAX axle by an outside source, shall void your warranty.*

Options

- READY-TO-ROLL® (RTR®) wheel-end options reduce weight, enhance durability and lower maintenance

- **Hendrickson Value System™ (HVS®)** features a three-year limited on-highway warranty*
- **Hendrickson Long-Life System™ (HLS™)** features a five-year limited on-highway warranty*
- **Hendrickson Extended-Life 7-year System™ (HXL7®)** features a seven-year limited on-highway warranty*

HVS® System
