

H WHEEL END Hendrickson Extended-Life 7-year (HXL7®) System™

Looking for more miles, more uptime and reduced maintenance costs from your trailer? Look to Hendrickson.

Fleet executives and owner operators trust Hendrickson for providing durable products with low-cost operation. Our high-performance HXL7® — Hendrickson's Extended-Life 7-year System™ reinforces that reputation with world-class design and capabilities.

HXL7 combines Hendrickson's engineering and manufacturing expertise with high-performance wheel-end components to create a wheel-end system that is 100 percent field serviceable and delivers reliability and performance mile after mile. As a result, Hendrickson provides HXL7 with an industry-exclusive seven-year limited warranty as standard.

Installed by our factory-trained technicians, HXL7 features a premium Federal-Mogul seal, high-performance synthetic semi-fluid grease and our PRECISION320™ spindle nut system. The PRECISION320 nut allows for ultra-precise bearing adjustment. HXL7 bearings are set with a slight pre-load, only capable with Hendrickson's advanced assembly technology, thus elevating bearing and seal performance beyond traditional levels. HXL7 is approved for use with wide base tires mounted on two-inch offset wheels.

If you are looking to get more from your trailers and to help increase uptime and reduce wheel-end maintenance, look to Hendrickson for complete system integration. From suspension through wheel end, Hendrickson delivers weight savings, durability, payback and outstanding performance.

Call your trailer dealer or Hendrickson at **1-866-RIDEAIR (743-3247)** or visit our web site at www.hendrickson-intl.com.

H HENDRICKSON
The World Rides On Us®

Trust HXL7® wheel ends for the long run

The HXL7® is available on most INTRAAX®, VANTRAAX® and TRLAXLE® loose trailer axle models and is approved for applications up to and including 25,000 pounds per axle. As a result, Hendrickson warrants HXL7 up to seven-years parts and labor in most on-highway applications.*

* See Hendrickson Comprehensive Warranty L583 or call Hendrickson for complete warranty terms, conditions and limitations.

HXL7 features and benefits:

- HP parallel spindle only
 - Larger bearings and longer bearing rolling path to carry load
 - Parallel spindle will not starve outer bearing of lube
 - Approved for wide base tires using two-inch offset rims
- Ductile iron and aluminum hubs with lube “fill ports” designed for accurate filling volumes
- Chevron Delo SF Grease — designed for trailer wheel-end applications, resists leaking
- Premium Federal Mogul seal — a Teflon-impregnated seal with a laid-down lip to resist leaking and prevent contamination ingress
- Non-vented, corrosion resistant aluminum hub cap
 - Non-vented virtually eliminates ingress of contaminants in tough environments and during power-washing
 - Special ceramic coating engineered to provide extreme corrosion resistance
 - Improved hub cap gasket to help prevent wicking
- Hendrickson’s patented axle filter and axle venting system — wheel end vents through the axle, not the hub cap. The axle filter protects the wheel end from internal contamination.
- HXL7 is available with TIREMAAX®
- PRECISION320™ nut system — allows for ultra-precise bearing adjustment. Bearings are set and controlled at a slight pre-load condition, thus elevating bearing and seal performance beyond traditional levels. PRECISION320 nuts are reusable in the field.

HXL7® System

TRAILER APPLICATION		HXL7 WARRANTY	
		LABOR COVERAGE	PARTS COVERAGE
On-Highway ¹	Van, Reefer	7-years	7-years
	Vocational	7-years	7-years

¹ HXL7 is not approved for use on Autohaulers or in any off-road application

Actual product performance may vary depending upon vehicle configuration, operation, service and other factors.
